

SD Workz

Information Brochure

We are SD Workz - focused entirely on new media designs for web and digital content presentations. It is our goal to create an innovative new media design that is informative, visually stimulating, and most importantly effective in presenting the quality of your organization.

We generate creative brands by using various digital tools like websites and application development, e-direct marketing, image editing and enhancement, interactive CD presentations and multimedia solutions. Our custom designs will not only improve your company's image, but give you the tools to market your services more effectively.

We are committed to our customer's success and understand that customer satisfaction is still the name of the game.

Focused on being the best

The secret of success lies in the perfect combination. We offer a unique service based on our Ideas, styles, tools and techniques - all for your success.

Software Interface Design

Wide spectrum of services

SD Workz recommends that client should set up a system that caters for expansion and flexibility in allowing the content of the site to grow.

As a part of our dynamic development methodology, we identify the following ingredients that make a successful Website. These characteristics can be incorporated into your site, to fulfill and enhance the objectives above.

Fast loading

The biggest single reason visitors do not stay at a Website is that it takes too long to load - that is the time it takes for the page to appear on the computer screen. The site needs to be designed around the premise of 'loading' as quickly as possible.

To achieve this SD Workz will ensure a strong text base for the pages (text loads very, very quickly). When photographs are used, we will tailor them to be the appropriate size.

The design process

Browser Compatibility

The site needs to be compatible for viewing across a wide range of user platforms and browser software. We will test the site with many different browsers to ensure that the vast majority of visitors can see the site quickly and easily.

Look

An Internet site today represents the first contact point for many prospective clients. It is, in a nutshell, showing how professional a company is, and what kind of attitude they have. In full consultation, we will discuss the interface and layout of the site with you, to ensure the site is attractive, appealing and reflects the appropriate image.

Information Structure

A clear, crisp view of the information on the site is paramount in relation to finding specific information on a site.

The design process

We have the expertise and experience to ensure the trouble-free and effective management of your Website - from conception to ongoing management. We are highly professional and committed to the highest standards. We have identified the requirements of the site and developed an appropriate strategy to ensure these needs are met.

From expert designers to copywriters and Internet marketers we have the team to ensure the highest quality site at a very competitive rate.
